Rinnai COMMERCIAL GAS RICE COOKERS

RR-55A

FEATURES

- SAVE MONEY
- SAVE ENERGY
- SAFETY DESIGNED
- AUTOMATIC GAS CUT-OFF AFTER RICE COOKED

Schematic disassembly

Rice Pot is made of quality aluminium, sensitive to heat. Inner surface is turned by synthetic diamond tool, which makes glossy and fine turning. Make it easy to clean the pot.

Lid is made of stainless steel. It helps retain nutrient of the rice. It can be easily cleaned.

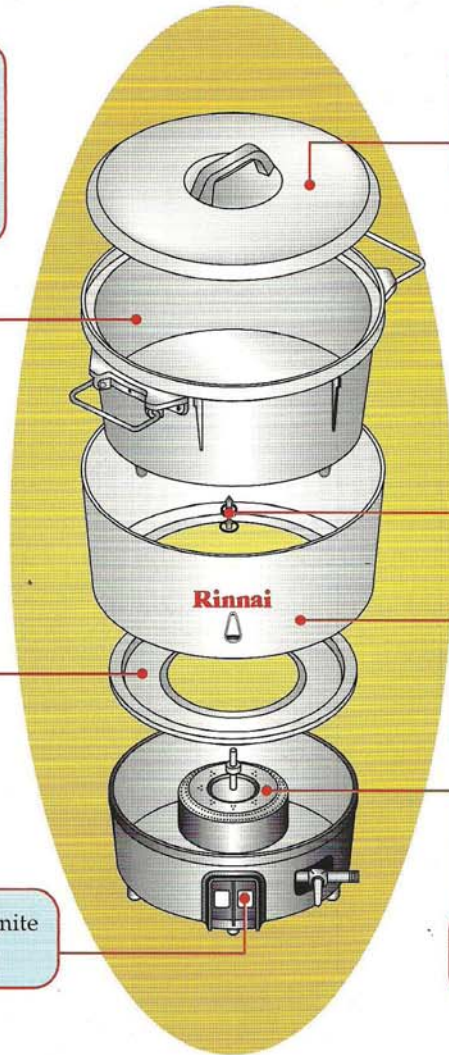

Drip Pan is made of reliable stainless steel, with high durability rust-proof and easy cleaning.

THERMO-SENSOR advanced technology from Japan, can cut-off gas automatically after rice cooked.

Outer Casing is made of quality metal no joint mark, rust-proof with enamel coating, beautiful luster and heat resistance for over 200° C

Gas Valve is high quality, which can ignite easily, and automatically keep warm.

Main Burner is of high quality, made of durable cast iron.

Manufacturing is certified according to the standard of ISO 9002
tuv Cert. ISO 9002 Quality System Cert. No. 04100 01646

SPECIFICATION		RR-55A/RR-88A		
		LPG	NATURAL GAS	TOWN GAS
Type of gas		LPG	NATURAL GAS	TOWN GAS
BTU		27,000	28,000	29,600
Gas Connection		Rubber Tube 3/8"		1/2" Pipe Connection
Unit Size		485 x 540 x 415 mm. (RR-55A) / 485 x 605 x 415 mm. (RR-88A)		
Net Weight		16.2 kgs.		
CAPACITY				
Raw Rice		4-10.0 Litres		
Cooked Rice		55 Persons
